PROJECTS

Pdf & photo editor website

📅 2024 📍 kuwait

Our project aims to develop a comprehensive web application using the MERN stack that integrates both PDF editing and photo editing functionalities.

- Users will be able to upload PDF documents and images, edit them using a variety of tools such as cropping, resizing, and filters, and then save or download the edited files. The application will emphasize a user-friendly interface with responsive design, ensuring seamless functionality across devices. Our goal is to provide a robust, efficient, and intuitive platform for digital content editing tailored to both personal and professional needs.

Crud Application

📅 2022 📍 Location

Our MERN stack CRUD application enables users to manage data effectively with Create, Read, Update, and Delete functionalities.

- It combines MongoDB, Express.js, React, and Node.js for a seamless user experience, catering to both business and personal use cases.

Certificate

1- Awarded with a certificate of Microsoft Word by Eduonix Learning.
